

(6.) and then get sore  
because we got our  
feet all tangled up.

Our regular sergeant  
was talking a special  
examination for officers.

Last Saturday at  
retreat roll call he

asked if any one in the  
ranks knew anything  
about the theory of  
gas engines. This

stuff happens to be  
my specialty so I had

the privilege of  
explaining how gasoline  
is converted into power  
in 2 and 4 - cycle motors.

It was deep stuff  
but I got away with it O.K.  
You see our wagon set
