I addressed a few Lines under the 16th curt being then newly arrived at this City, am advised generally not to proceed judicially in my Business but to compose it with a Relation of our Governour because it will cost much time their Methods being dilatary. I am assured from friends that I shal have a Speedy issue to returned p. first Conveyance for Madeira where I may be wanted, altho I find that every thing is well managed in my absence by Son having departed himself very prudently and according to the general Character as if I my Self was there present. I am extreamely pleased with his diligence and shall not will be continue -

Mr. Hackshaw &c tel mee that you had remitted 400 Ps. for my acc.t and that you advised of sendmg them Bills for a greater Sum, I could wish it had been done because as I am present upon the place might discharge several Bills that I was obliged in this occation to pass or fix. I now write Mr. Jno: Coulson to pay you the Ballance of what he hath of mine in his hands, please to Seal and give him the Inclosed + here is noe settled Exchange -

I confirme what you have on the other side from Madeira the West India Fleete parted from Madeira the 13th curt. leavening 5 Sayle to load for several places, you may please not to mention any thing to Messrs Halls as if it was our opinion that you agreed to send a vessel together -

I have not advice of the William Capn. Fyfield Comander whether he proceeds for England according as I advised you or whether he goes for Boston, therefore I cannot tel how to advise for further Insurance, I request you upon Notice from Barbados to act as you would doe for your Selfe in the like Case -

I have sometime since mentioned the damage on a Bale of Bays that Mr. Samll. Brooking had on Borde Capn. Williams, the said Comander agreed with him to pay him the first cost and charges, but went away without doeing any thing

altho' he promised to give him a Bill for his Money — Mr Brokeing hath since caused the Bays to be sold, and in justice the Remainder must be accounted for —

Mr. Miles intends for England in a Flushinger, besides the villany he did me with the Governour, he told publickly that I reported in England that he was broke and therefore you altered your Consignations to mee — and this was done the more to expose mee — Please to have an Eye to my children — I am
