Barbadoes & there to be clare this we presume may be easily done & provided corne cann be purchased at the above price or under these are the two Conditions now because this freightment must be made in this manner it wil be most reasonable to agree for the vesel from London to Madeira & Barbadoes unless we see cause to lade him back againe but that to be left to our choice the Termes must be according as you can procure them — And if it should happen that the ship soe freighted must proceed for Barbados for any reason that we cannot fore see either from our information as we have desired or from what we may have of our selves as that the Malvasies may not be too our likeing & soe not fitting to ship home it wil be necessary that you be concerned in one halfe of this designe because the wines must goe for your acc.t to Barbadoes & then the proceeds of one halfe of the Corne may goe to the purchasing of one halfe of the wine & excuse disputes of soe much ℔ Cent & soe in likemanner you may be concerned the one halfe of the Malvasies as you shall give incouragment because you must be concerned in the outward bound lading of corne & this wil keep all acc.ts Clear but then we must observe to you that you must order the Malvasies to be consigned or put into the hands of Mess.rs Hall or some other Canary Merchant unless W.B. should goe to England with them for it is most certaine that they would be blowne upon in your hands or any other Persons out of the wine trade as it hath severall times happened when they have been forced to sell by Inch of Candle —

We further note to you in Prosecution of this designe that you imediately freight a ship if the corne be to be had as we have before advised because we are sensible that others wil & likewise doe order the ladeing of said Comodity for althó we have limited to the begining of March yet the sooner the better — & it as it may be there wil be noe liberty of shipping of corne from England it wil not be amiss to write or send a vessel to Rotterdam but that wil be delatary & chargable you have the out Ports as wel as London & in many of them can be cheaper supplyed but not soe speedily we hint to you our notion of things but you upon the place know best —

We think there remaines but one thing to say which is that you wil have only to charge us with one halfe of the cost of the wheate and one halfe of the freight of it to this place we have made the proposals in this manner because this wil supply your order for Barbadoes if the vesel must goe theither & if the returns you have put into our hands soe much as that we can lade wines for the West Indies on your Acc.t either where we can procure freight or where you shall order & those proceeds of Corne to goe to one halfe of the Purchase for because this year neither Bays nor any other Manufacture wil turne to Acc.t we have offered to send for a Thousand Pounds value of Goods at 15 ℔ Cent giving twelve months for payment & noe one wil give it us this being what offers we are
