for school purposes
of 1838 may soon be given to
us. Our children have had no
opportunities for instruction for several
years, and are growing up ignorant
which we very much lament.

In addition to this we petition
that all the other stipulations of
the said Treaty be fulfilled. By
referring to that Treaty you Hon. Sir
will see that we were promised farming
utensils, a grist & saw mill
a church, a doctor and a blacksmith.
We hope that you will believe with us
that "it is time that that Treaty with
all its stipulations should be fulfilled
Some of us have again & again begged
for our homes to be secured to us
and now when almost all our men
are dead we begin to have some little
hope that we are now to have our rights
We desire that the lands should be secured to us
in such a manner as that it can not be sold
to any but the President of the United States
