May 2, 1942.

Mr. George Trombold,
Personnel Director,
Boeing Airplane Co.,
Wichita, Kansas.

Dear George:

I will be glad to see Joe Gulledge if you want to send him up here some time. I imagine the muscle that you are speaking of is the supraspinatus or the subscapular. I am not sure which one it is, either. But if you care to send him up I would be glad to look at it and do what I could for him.

Of course, if at any time I am coming to Wichita I would be glad to examine him there, but at the present time I have no trips planned in that section. Or, some time at my convenience, if they would care to pay my expenses to Wichita, I would be glad to go. I would cherish a luncheon visit with Mr. Schaeffer.

I imagine, however, that they would rather send Joe up here. Of course, a fellow can't diagnose a case like that unless he sees it. There would be no charge for any services that I might render him. It might be possible to fix him up.

With kindest regards, I am

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.

FCA:AH

P.S. If Joe Gulledge should come to Lawrence, let me know ahead so that I can plan to see him.
