Only this part of the hide is used

. . . . . DUBOW'S D35 basketball approved by the National Federation of High School Athletic Associations. Made of the finest selected pebbled grain cowhide specially tanned for this purpose. Double lined with the highest grade of material, all seams inside, rounded and flattened down and reinforced at the ends with hand sewing. Equipped with an improved type of valve bladder easily inflated. Each ball is laced and is tested and inspected at the factory by a former college coach and is ready for inflation when purchased.

J.A.DUBOW MFG. CO.

1907-13 MILWAUKEE AVE

CHICAGO

. . . DUBOW'S D45 football approved by the National Federation of High Schools Athletic Associations. Conforms in size, weight and shape to the new specifications as decided upon by the Football Rules Committee. Made of leather especially tanned for this purpose, double lined, equipped with an improved type of valve bladder and easily inflated. Each ball is laced and is tested and inspected at the factory by a former college coach and is ready for inflation when purchased.
