

(3) a Pepples raid over London and saw one machine set on fire by an anti-aircraft gun. The pictures were of all the warring nations and were very interesting. I have only seen two motion pictures since I came here and they were at Leavenworth City. They have free motion pictures here three times a week but I haven't seen any yet. I know that I liked the shows in Beloit just because they were a good excuse to be with one mighty sweet and lovable little girl.
