Dr. Forrest Allen,
Lawrence. Kans.

Dear "Phog":-

Now this is off the record but believe you can be of help to us. Over the week end Bob was home and he says he is not going out for B. B. practice cause he has no chance, etc.. was pretty low but his mother and I think he should have the physical training. He (Bob) says he is going to turn in his equipment, and go into Inter-murals which I don't think is best but now you know best and when he comes to you for check out, would appreciate your personal touch as we would like very much for him to continue under your guidance.

Now Phog, we wouldn't want him to know of this epistle but any personal touch you can give to help him out will be appreciated.

Yours sincerely,
Ren Bonebrake
Box 195

P.S. Hope this is not a letter to far out of line.
