July 7, 1938.

Mr. I. J. Meade,
Lawrence National Bank,
Lawrence, Kansas.

Dear I. J.:

Last week end I called you regarding the safe in the Athletic Office, and I did so because the Department of Physical Education is enlarging the quarters here taking over a small portion of the foom formerly occupied by the Department of Athletics. Mrs. Webster and Miss Stockwell were in that office at the time I called. Mr. Gwinn Henry was out, and Mr. Earl Falkenstien had gone on a thirty-day vacation.

Mr. Love, of the Department of Buildings and Grounds, said it was necessary to move the safe from its location as he was putting in a partition which would prohibit the easy movement of the safe. I endeavored to reach Mr. Gwinn Henry, but failed, and fearing that the safe would be walled off in a position which would make it inaccessible, I called you.

I am told that when the workmen came up to move the safe Mr. Henry told them that he thought Mr. Falkenstien desired to keep the safe. Mr. Falkenstien has the combination, and none of the other people around here know the combination.

I am sorry if this has caused you any inconvenience, but I was desiring to help matters, as it is necessary to have this available space for our department. As it is, the safe is being moved into the Athletic Office. This is merely an explanation of the part that we played in the matter. We were hoping to avert any difficulty, but I fear that we did not get the job done as we desired to have it done.

I want to thank you for your kindness in loaning the Department of Athletics the safe for these many years.

Very cordially yours,

Director of Physical Education,
Varsity Basketball Coach.
