Tuesday March 7th 1899

My Darling Boy—

I enclose a letter from Mr Brady to your Father which you will show to Mr Lynn—so that he may understand the situation here with regard to the Costa Rica Bonds— Mr Brady took the Bonds and went to New York to attend to the business for Papa— for they (Mr Bacon) telegraphed Papa to have the Bonds at Chase Nat. Bank last Monday—they were there and Mr Brady with them = the rest—you can see by the letter— I wish

we could hear today that they were sold and delivered — Papa telegraphed Mr Lyon to send Bonds to Chase Bank which I suppose he has done — We are looking for your letters of this week — hoping you will tell us something of the attempted revolution — which the New York Herald published and Mr Brady enclosed the clipping in his letter. — I have subscribed for Harpers Magazine to be sent to San José I hope you will take care of them if they are going there — Papa is getting better slowly he is not yet out of his room but we hope he may get down stairs this week — If we could have pleasant weather it would do much for him — Snow fell last night and this morning it was very deep — but today is bright and sunny and I hope we may have a few such days —

Don't worry about us any more than you can help — but take care of yourself and family — and I hope we will soon be together and have such a happy time that we may forget all these

unpleasant days —
Tomorrow will be Ida H Jeffers
wedding day —
My love to Olivia and the dear little
baby - and many kisses to you
all — also love to Dan Wells —
God bless and keep my
children — Lovingly - Mama
