Dr. F. C. Allen
University of Kansas
Lawrence, Kansas

Dear Dr. Allen:

I am writing for information and advice. You see I graduate, from the Kirksville College of Osteopathy and Surgery, this Spring and am looking for a location.

You see I have been in Dr. J. K. Woodhull's office during his vacation the last two summers, now that he is in California I wonder if it would be wise for me to open an office in Lawrence.

There are many things to consider and I would appreciate your advice. I have lived at Linwood for years and am well acquainted in and around Lawrence. Dr. Geo. A. Esterly is a friend of my family and I met and talked with you in his office this last summer. I am the daughter of the late W. T. Parry.

Sincerely

Esther L. Parry
