January 13, 1944.

Miss Edna Hill,
Home Economics Department,
106 Fraser.

Dear Miss Hill:

I have been endeavoring to get the Chancellor to take him to see the work that has been done at the Nursery School. I want to impress upon him the fact that $80.00 has been spent there to improve the building and not one penny has come from the University budget.

We could not have gotten this job done for less than a hundred dollars if we had asked the University to do it or any contracting carpenter, but we had Mr. Dell Davidson who not only is very economical but very ingenious in saving material and doing a swell job.

You can see by the enclosed letter that we are asking the members of the Nursery Committee to visit the school and see what has been done.

You will note that we got a reduction of better than $4.00 from Mr. Hunsinger on the adjustment in taxi hauling.

With assurances of my full cooperation in this fine project, I am

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
