when I came home?

Our Company went on guard Thursday. I was put on Post No. 1, which is the guard house at the Cantonment. It boasts of three prisoners. I had the hours between 4:45—6:45 and 10:45—12:45, day & night. During the day I had the front of the guard house only and at night, two store-houses extra. It was pretty cold but not as bad as some nights. I got pretty handy at "pulling the grin"; at everyone has to be challenged with the pistol raised. Of course the no one is challenged
