

"WITH THE COLORS"

(2)

weeks of loafing around in the corral made them feel pretty funny. We had quite an exciting time rounding up our own horses. I got "Ten" out before the stampede but had a gay time "snagging" a mule to lead. "Ten" had fattened a little since I saw him last, and when I saddled him, had to let out the cincha (which is the strap around the belly) about two inches more than usual. I am showing the effects of Army starvation of Ten in the same way.
