May 24, 1939.

Dean R. A. Schwegler,
School of Education.

Dear Dean Schwegler:

Following our conference yesterday regarding the course School Hygiene, you will note that our recommendation was for the discontinuance of this course as a requirement for the major in physical education.

It could still be left in the curriculum as an elective subject. Our suggestion was only that it be dropped as one of the required courses for our majors.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
