say too much of the boys from
Kan. Altho I've been a non-
combatant I've seen them after
they became casualties and of all
people to treat I'll take our
dog faces. They are the tops
and I've never seen as much
guts as they have and the
will to return and win. When
you see men with 5-6-7 etc
medals, fighting like hell to
return, they have something.
Since wish tho there wasn't such
a thing as casualties. Spent a lot
of time in Africa but have
been in Italy since 1st June
