March 1, 1938

Dr. Allen,
Lawrence,
Kansas.

Dear Doctor,

I have been registered with the Ohlahoma Vocational Education department for a year and a half. They have not shown any intrest in me untill the old age pension scandal broke last week. I had a repesentive from the capitol called on me today and they are very anxious to do something for me. I told them that I wanted to get some special Traing from you, they are ready to send me to-morrow. They wanted your adress so I expect they may write you.
