

(2) On the south side of the Fort is the Leavenworth nigger town. It is full of bootleggers and some of the signal men have been getting booze there. One night four Co. C-6⁷ P.K. men got mixed up in a fight in which they killed a nigger. A young riot resulted and in a short time twenty more Co. C-6 men and a commissioned officer, all armed with Colts .45 auto pistols waded in and cleaned up the district. They kept a guard of P.K. men there for a couple days and now no Fort men are allowed within specified boundary of "coon town." It sure is a good thing even tho it cost one nigger's life to prove it.
