September 24, 1937.

Mr. D. E. Mosby,
The C. V. Mosby Company,
Pine Blvd.,
St. Louis, Missouri.

Dear Mr. Mosby:

The writer was in the East all summer. Upon his return a letter from Mr. B. O. LeBlanc was received, dated August 10.

This had to do with the teaching of the Personal Hygiene course. Your book has been received and it is very interesting. I assure you that we will give the text very careful consideration and attention.

With the organization of the new course in Physical Education it has been well-nigh impossible for us to review this. However, in the near future that will be done. Thank you very much.

Sincerely yours,

FCA:AH

Director of Physical Education.
