was the bunk and never bothered with it. Perhaps they'll let my educational course in measurements count -

(3) Am also enclosing a record from the registrar's office as to courses I took from Quitt after I came to N.U. to teach - that record should accompany my transcript too -

(4) the letter from the state office here giving directions for procedure -

I debated for some time whether to send all this stuff to Mr. Foster & let him contact you as to the official statement of my teaching courses & the character recommendation or whether to do it vice-versa - As you see I decided on the latter because I could make one letter do several things and because I felt you might have some idea better than what I've suggested. Moreover I am writing Mr. Foster requesting that he send my official transcript to Albany (accompanied by whatever data you append) & that he fill in the requirements of Part II on the application blank & and I shall tell him that you will forward this blank to him together with whatever official statement you make - this blank I want him to forward to the registrar at Columbia then so they can add whatever work applied there. Moreover the official transcript is sent directly to Albany -

Now does this make sense or is it completely impossible? At any rate I'll be undying
