 "WITH THE COLORS"

Send well with the key.  
 When you hear the clatter of telegraph instruments in an office, did you ever stop to think that every little combination of dots and dashes forms a letter? Take the word "receive" for instance:

Morse	=	R	E	C	E	I	V	E
		"	.	"	.	"	"	.
Radio	=	"	.	"	.	"	"	.

The American Morse is a little harder to receive because if the letters are run together, an ~~RR~~ R ("") can't be distinguished from ~~ER~~ E I (E!) nor a C ("") from I E (!E)
