(5.)

having too much space
between the last dot and
the first dash.

For instance the letter
$A = E + T$ or $\cdot -$, but
there must be very little
space between the dot and
the dash —— $\cdot-$ — and
not $\cdot \ -$. The count
is 1, 2 (the same as in
I ") and not 1, and 1.

In making the letter "S,"
which is three dots, the
count is 1, 2, 3. Also,
the letter "U," which is two
dots, dash, is counted
1, 2, 3 holding 3 so as to
form a dash instead of a
dot. Again, 7 is
