HERMAN A. MERCER, B. S. M. D.
PHYSICIAN AND SURGEON
FIRST FLOOR A. C. OFFICE BUILDING
ARKANSAS CITY, KANSAS

My work is Resident in Ophthalmology, Eye. Clinic work goes on all morning each day and Operative surgery on Tuesday and Friday of each week. Besides preparing eye cases and working them up clinically I have the pre-op operation care and assist in all eye surgery. We have many strabismus and cross eyes as well as Cataracts, Needling of lens, operations for Glaucoma, Lid lesions etc. As one becomes familiar with the procedure the staff man says all right now you do this one I will keep you straight. Last 2 wks I have done two cross eyes. Very good for the first 2 months I think. Chief told me the other day that I would do all enucleations, removal of Eye cases. So in next ~~two~~ months I think I may become well acquainted in eye surgery. We have ten men on staff half working every other day.

Mrs Mercer and Margaret visited me five days first of month then went down to Bloomington Ind and visited her parents. Ivan had the misfortune of breaking his large toe Right foot and came back last Monday evening with that impairing his speed and comfort so she & Margaret went to
