Dear Marie,

I just finished a little note for you, so it would be mailed right away, so will write my letter now. Did you get all of my letters last week? I think I wrote two and another, typewritten, one about telegraphy. You read my "Morse" letter OK.

I just got your letters of the 18th & 19th this noon. Please keep a little note of the dates on your letters and then when you get my letters notice the dates on them and tell me so that I can be sure no letters are lost.
