matters, much more hatefull it is, with matters of Justice treated. Sett Sr. John Wentworthes rash therefore bee the first President of Such Interrogatories to a Judgment ministred at the Hallowes, Sr. John Hollis his Counsell was bound to have caused Weston to speake something if it might have beene spread in the defaming of his Tryall, this appeares by the declaration of his opinion at the time of the Evidence, that hee should doubt what to doe and at Westons departure also, hee was sorry, to see that Conclusion that hee made, which hee doth now interprett to bee his meant of dyeing, But the truth is, (wch I take it) apparant, that whilst his Counsellors by questions as his Counselling by perswasions, were onely intended to this end, to stand all and defame the Judgment passed, and to discourage and discomfiture ouer further proceedings, Sr. John was sorry, to see this Conclusion that hee did not use some words of retractation and that meant of dyeing, bee cause it tended to the Confirmation of ~~further proceedings~~ Justice passed, and the Justification of further proceedings herein hereafter more for the fuller disquisition of the truth if this Interpretation seeme doubtfull, It is made playne and evident by the Examination of Birmingham who testifieth
