- 11 Herrmann gulls

One ⁴ rhinoceros auklet captured 5 fish (approx 2" long) and held in bill as they fished.

July 28, 1993

Harbor seal remain on pullout rocks during rain. On the average more seal are displaced on Flower Rocks than on Leo Reef because of the near vicinity of Spencer Spit.

Adult bald eagle flew N past Bee House. These eagles use regular pathway past Bee House both as to height above water and distance from shore.

Harbor seal on pullouts in N Lopez Sound:

Leo Reef Rocks #3-5 16 harbor seal.

" " " # 9 7 " "

" " " # 10 8 " " no gulls.

Little Flower Rock 4 " "

North Flower Rock 6 " "

total 41 harbor seal.

10:20 AM. Birds at Swift Bay Beach:

- 38 Calif gulls
- 11 glaucous-winged gulls
- 31 Bonaparte gulls.

At Bee House a ♀ mule deer scratched entire head on dead branches of a fir (Douglas) tree. It also ate the seeds of grasses. Flawn of mule deer measured 24" high at shoulders.

This A.M. at 4:50 a planet reflected from the still waters of north Lopez Sound. Usually there were 4 or 5 reflections of the planet in a close pod but occasionally there was only one perfect reflection. Yesterday was the first hot day of summer and anchor lights from boats at Spencer Spit trembled or wavered from
