BLAKELY

3:30 P.M. following birds observed in N Lopez Sound between Les Reef and Bee House:

- 38 mew gulls
- 2 glaucous-winged gulls
- 1 Bonaparte gull

2 boats disperse all seals of pullouts in N Lopez Sound.
no rufous hummingbirds since last recorded.

This ♂ mule deer attempted and succeeded in opening the deer food can (held approx 200 lbs cracked corn) by prying lid off with antlers after first clawing rock from top of can and by bunting and hitting can with antlers. Even after partly removing lid it was unable to get to corn because of heavy antlers. ♀ mule deer had no problem reaching food with head & neck in opening.
