Returned to station and proceeded with skinning & measurements
Found the water cooling ice box at a temperature of 60°F at
2:30 P.M. This box is about 1 1/2' x 1 1/2' x 2", of 1/4" side
boards and inch top and bottom. Three drawers. Lined with
gunny sack and drainage by ordinary wash pan placed on top.

supported by wires and screw
for rotating purpose. Wind
catch turns refrigerator so that
all sides are exposed to wind.
This arrangement is very sat-
isfactory wherever one finds
wind. It is particularly good
on the desert wind prevailing
wind always are blowing, but
however, on the desert one is
frequently pressed for lack
of water even for drinking pur-
poses let alone enough to support this ice box arrangement.

mammal measurements.

(9-8-7-39) *Eutamias* 186-82-30.5-36gr. ♀ ut. ok.

Taken from research area A-8-6-39 from trap 15 at 2:00 P.M.

(10-8-7-39) *Citellus v. utah*. Collected in the act of

carrying a dead coren up the south hillside above Coler.
Wren Celd so was probably picked up dead. Collected at
