

24. *Peromyscus* (white iris)  
 25-27 unaffected  
 28 *Peromyscus*  
 29 *Peromyscus*  
 30-31 unaffected

Inspection of research area B-8-6-39 at 6:30 A.M. = 2 micratis.  
 measurements and preparation of mammals from research  
 area B-8-4-39 at 6:35 A.M.

- (1-8-9-39) *Micratis* 150.52-20.2-20gr. ♀ uterus normal trap 12  
 (2-8-9-39) *Peromyscus*. 151.71-20.2 - 16gr ♂ trap 28.

Trip up to head of West canyon and return. The objective  
 was to check on floral areas, overgrazing, presence of pika,  
 presence of *Tamiasciurus* and other forms as well as to get  
 data on general animal life. The general route led up  
 up canyon to point where two main canyon converge, hence  
 up medial ridge to near top of cirque walls, hence east  
 across the terraces of cirque, hence down cirque, hence across  
 east side of canyon to secondary canyon leading down into the  
 main west canyon. Left Rhodes Cabin at 8:15 A.M.

- 8:25 S.T. Chickadee group of about 12 in cottonwood creek bed.  
 8:26 Red. tail flew from top of cottontail. *Citellus v. utah* called  
 as it flew by.  
 8:27. Utah Jay calling.  
 8:30 *Eutamias*. small bird calling.  
 8:33. Chickadee calling. Spring on n. side hill 100' up hillside.  
 Can hear *Eutamias* on south side.  
 8:36. Canyon & water issuing from it on the south side of canyon.  
 8:40. *Cit. v. utah*.  
 8:41. *Eut. m. curus* (?) Possibly all these lower forms <sup>are</sup> of this species.  
 8:42. Cabin. *Neotoma* evidence in cabin. nest of *neotoma* on  
 outboard of wood chips, cow dung, paper, cardboard, rocks,  
 rocks, clothing, leaves, sticks, rogs. 3 sceloporus in among  
 logs of cabin. Feeding 8:46.  
 8:47. Pine siskin flew by.  
 8:47. Spring above cabin on north side of canyon.  
 8:48 *Cit. v. utah* calling high on north canyon hillside.  
 8:49. Badger holes  
 8:56. Few aspens here in canyon bottom.  
 8:57 Pine siskin

From 8:58 to 9:03 made a sceloporus count as I normally walked  
 along road. No sceloporus counted in this stretch. Many were  
 observed before count made.

9:01 Canyon and water from south side of canyon. Chickadee  
 calling from the north side. *Cit. v. utah* calling in rocks on north  
 side. (These mammal & bird calls are not repetitions)
