

- (43-8-14-39) *Peromyscus* 155-71-21. ♀ trap 85 390814-158
 (44-8-14-39) *Peromyscus* 145-63-20-13gr ♀ uterus normal. trap 103
 (45-8-14-39) *Peromyscus*. tailed stubbed, trap 108 ♂
 (46-8-14-39) *Peromyscus* 152-70-20-16gr ♂ testis 4.5 trap 112
 (47-8-14-39) *Peromyscus* 152-74-20-11gr. ♀ uterus normal trap 25
 (48-8-14-39) *Peromyscus* 152-70-20-15gr. ♂ testis 4 m.m trap 128

Inspection of research area A-8-11-39 in afternoon revealed no results so transferred to another area except trap numbers 1 and 4 which remained. Was particularly interested in trap no 1 and its catches. With the traps at Chimney rock and five others placed the new series of 10 at the extreme eastern end of the cliff outcroppings. Traps no 1-2 were placed on isolated cliffs to the S.E. of the east end of cliff terminals. These isolated cliffs are about 600 feet east & south of east end of main congregation of cliffs. Nos 3-4-5-6-7-8-9-10 along east end of cliffs and placed in association with regular *Neotoma* nests. These traps were placed here to check on the *Neotoma* and any antelope chipmunk that may be here. The presence of the two species of *Neotoma* & occurring at same traps were interesting & any further information relative to their association would be of benefit. This near area was given the research area no A-8-14-39.

Inspection of research area no A-8-12-39 30 minutes before sun set as follows.

1-28 bait gone	80-81 unaffected	123-124 - unaffected
29 unaffected	82 unaffected	125-126 bait gone
30-31 bait gone	83-89 unaffected	127 <i>Peromyscus</i>
32 sprung bait gone	90 unaffected	128-131 bait gone.
33-35 bait gone	91 Rock wren	
36 unaffected	92-95 unaffected	
37-55 bait gone	96-99 bait gone	
56 unaffected	100-106 unaffected	
57-63 bait gone	107 bait gone	
64 unaffected.	108-111 unaffected	
65-70 bait gone	112 <i>Peromyscus</i> of yesterday	
71-78 unaffected	113 bait gone	
79 sprung	114 <i>Peromyscus</i> of yesterday	
	115-118 unaffected	
	119-120 bait gone	
	121-122 unaffected	

8-15-39 Station 2. Chimney Rock Pass.

Inspection of research area A-8-14-39 at 6:00 A.M.
