Finish line at 9:40 A.M. being on the route ~~300~~ to 3 hours. A plane passed at 9:20 and seemed to be a very regular visitor at this time. The sand and distance necessary to cover as well as heading down 236 times is very fatiguing particularly when one does not have breakfast before going out on trapping route.

Measurements and preparation of mammals from research area A. 8.21.39 at 6:40 A.M.

(1-8-24-39) Dipodomys 233-130-39 - 1 1/2 oz. ♀ uterus normal

(2-8-24-39) Dipodomys 243-139-40 - ♀ 1 7/10 oz. testis 2. m.m.
