

- 29. 25' from 28. On supersaturated ground among grasses
- 30. 10' from 29. Ibid.
- 31. 30' from 30. on partial island under protection of spruce. On the dead dry spruce needles on the ground.
- 32. 12' from 31. By side of water in usual creek association.
- 33. 30' from 32. In a damp abandoned Creek Channel in dense grasses
- 34. 20' from 33 Dry grass area.
- 35. 40' from 34. Ibid. and 4 feet from H₂O.
- 36. 25' " 35 Among isolated spruce patch on supersaturated. Lack of any vegetation.
- 37. 10' from 36. Same patch as above. supersaturated soil, grasses, willow and old stumps
- 38. 10' from 37. Ibid.
- 39. 35' from 38. Dense grasses, dump, 4' from running H₂O.
- 40. 25' from 39. Ibid.
- 41. 25' " 40. Vegetation bordering spruce, dry.
- 42. 15' from 41 Variable grass & plant growth. partially damp.
- 43. Ibid.
- 44. 20' from above. Abandoned creek bed near tall grasses.
- 45. 20' from 44 Abandoned creek bed under protection of spruce. Vegetation lacking.
- 46. 50' from 45. Damp, grasses, bordering creek bed. Consequent of lateral creek.
- 47. 15' feet from 46. In center of willow patch. Dry leaves, rank growth.
- 48. 10' from no 47. Supersaturated, grasses, among willows.
- 49. 20' from 48. Ibid.
- 50. 30' from 49. Exposed, supersaturated soils, tall grasses.
- 51. 60' from 50. In water box 7 feet deep. no means of escape, bordering boggy area, Citellus armatus, Bufo boreas, several Peromyscus. skeletons in bottom.

The next series of same research area were placed up the lateral canyon in vegetation bordering the creek.

- 52. 100 feet from 51. Edge of road at H₂O edge.
- 53. 3 feet from 52 at base of spruce at edge of water.
- 54. 8 feet from 53. Supersaturated soil, tall grasses under willows, sismac, & blackberry.
- 55. 5 feet from 54. Ibid.
- 56. 20 feet from 55. Ibid.
- 57. 10' from 56. Base of dry willow clump. 8 feet from H₂O stream.
- 58. 20' from 57. Base of dry willow bush. Dry grasses and leaves. 10 feet from the main creek.
- 59. 15' from 58. Creek edge in dense group of sismac and grasses.
- 60. 20' from 59. Ibid.
- 61. 3 feet from 60. Ibid.
- 62. 18' from 61 Damp soils, grasses. 6 feet from H₂O. Much brush.
- 63. 12' from 62. Dense grasses, damp meadow runway. 2 feet from running H₂O
