

- 390830-091
64. 25' from 63. Concealed in dense sumac, dry leaves near lamp situation.
  65. 30' from 64. Eucalyptal bank of creek. Partially damp.
  66. 40' from 65. Tall grasses. Runway 15' from edge of creek.
  67. 8' from 66. Damp soils, tall grasses. Edge of dense willow, blackberry & sumac. (?)
  68. 20' from 67. Boggy, dense growth in supersaturated soils.
  69. 20' from 68. An isolated and elevated spring on south side of creek. Dense growth associated.
  70. 30' from 69. 10 feet from running H<sub>2</sub>O. Exposed clearing in center of sumac, ground dry & surfaced with leaves.
  71. 20' from 70. Hillside, good growth of vegetation. 30' from H<sub>2</sub>O.
  72. 20' from 71. Partially dry hillside, good growth.
  73. 30' from 72. 20' from H<sub>2</sub>O. Nearly dry. Good vegetation.
  74. 15' from 73. Among exposed roots of spruce stump. Surface damp.
  75. 35' from 74. 1 foot from H<sub>2</sub>O. Dense vegetation on side of creek.
  76. 30' from 75. Very damp, tall grasses, mass covers ground, 3' from H<sub>2</sub>O.
  77. 12' from 76. Ibid.
  78. 20' from 77. 1 foot from H<sub>2</sub>O among moss covered mounds, tall grasses, dense brush along creek.
  79. 20' from 78. Six feet from H<sub>2</sub>O. Surface dry, base of spruce, lack of vegetation. dead spruce needles.
  80. 30' from 79. Moss covered mounds 4 ft from H<sub>2</sub>O, near tall grasses.
  81. 25' from 80. No grass, under partial protection of spruce, considerable debris.
  82. 30' from 81. Damp surface, dense grasses. 15' from H<sub>2</sub>O near brush.
  83. 15' from 82. Ibid except 3 feet from H<sub>2</sub>O dense blackberry association.
  84. 35' from 82. In dense group of spruce at edge of intermoraine bog. no vegetation but surface covered with a thick layer of pine, and fir scales. *Talpacotermes* living here with many diggings of this animal. 10 feet from H<sub>2</sub>O.
  85. 25' from 84. Damp surface among tall grasses between willows and bog. Mosses & liverworts present.
  86. 12' from 85. Typical bog area association. Springy otherwise ibid.
  87. 12' from 86. In trail in dense grasses on bog area.
  88. 8' from 87. Ibid.
  89. 12' from 89. Ibid.
  90. 12' from 89. Ibid.
  91. 12' from 90. Ibid.
  92. 12' from 91. Ibid except running H<sub>2</sub>O at edge of trap, sumac patch.
  93. 12' from 92. Head of one spring in willows, ground damp among grasses, and moss covered mounds.
  94. 10' from 93. Dense grass in willows, surface partially dry.
  95. 13' from 94. Damp grass mounds 2 feet from H<sub>2</sub>O.
  96. 25' from 95. Ibid except in trail in grasses.
  97. 10' from 96. Tall grasses among willows.
  98. 12' from 97. In exposed mud flat but surrounded by grasses.
  99. 20' from 98. Tall dense grasses. Damp.
  100. 12' from 99. Ibid. Gopher hole near.
