

10-5-39

391005-274

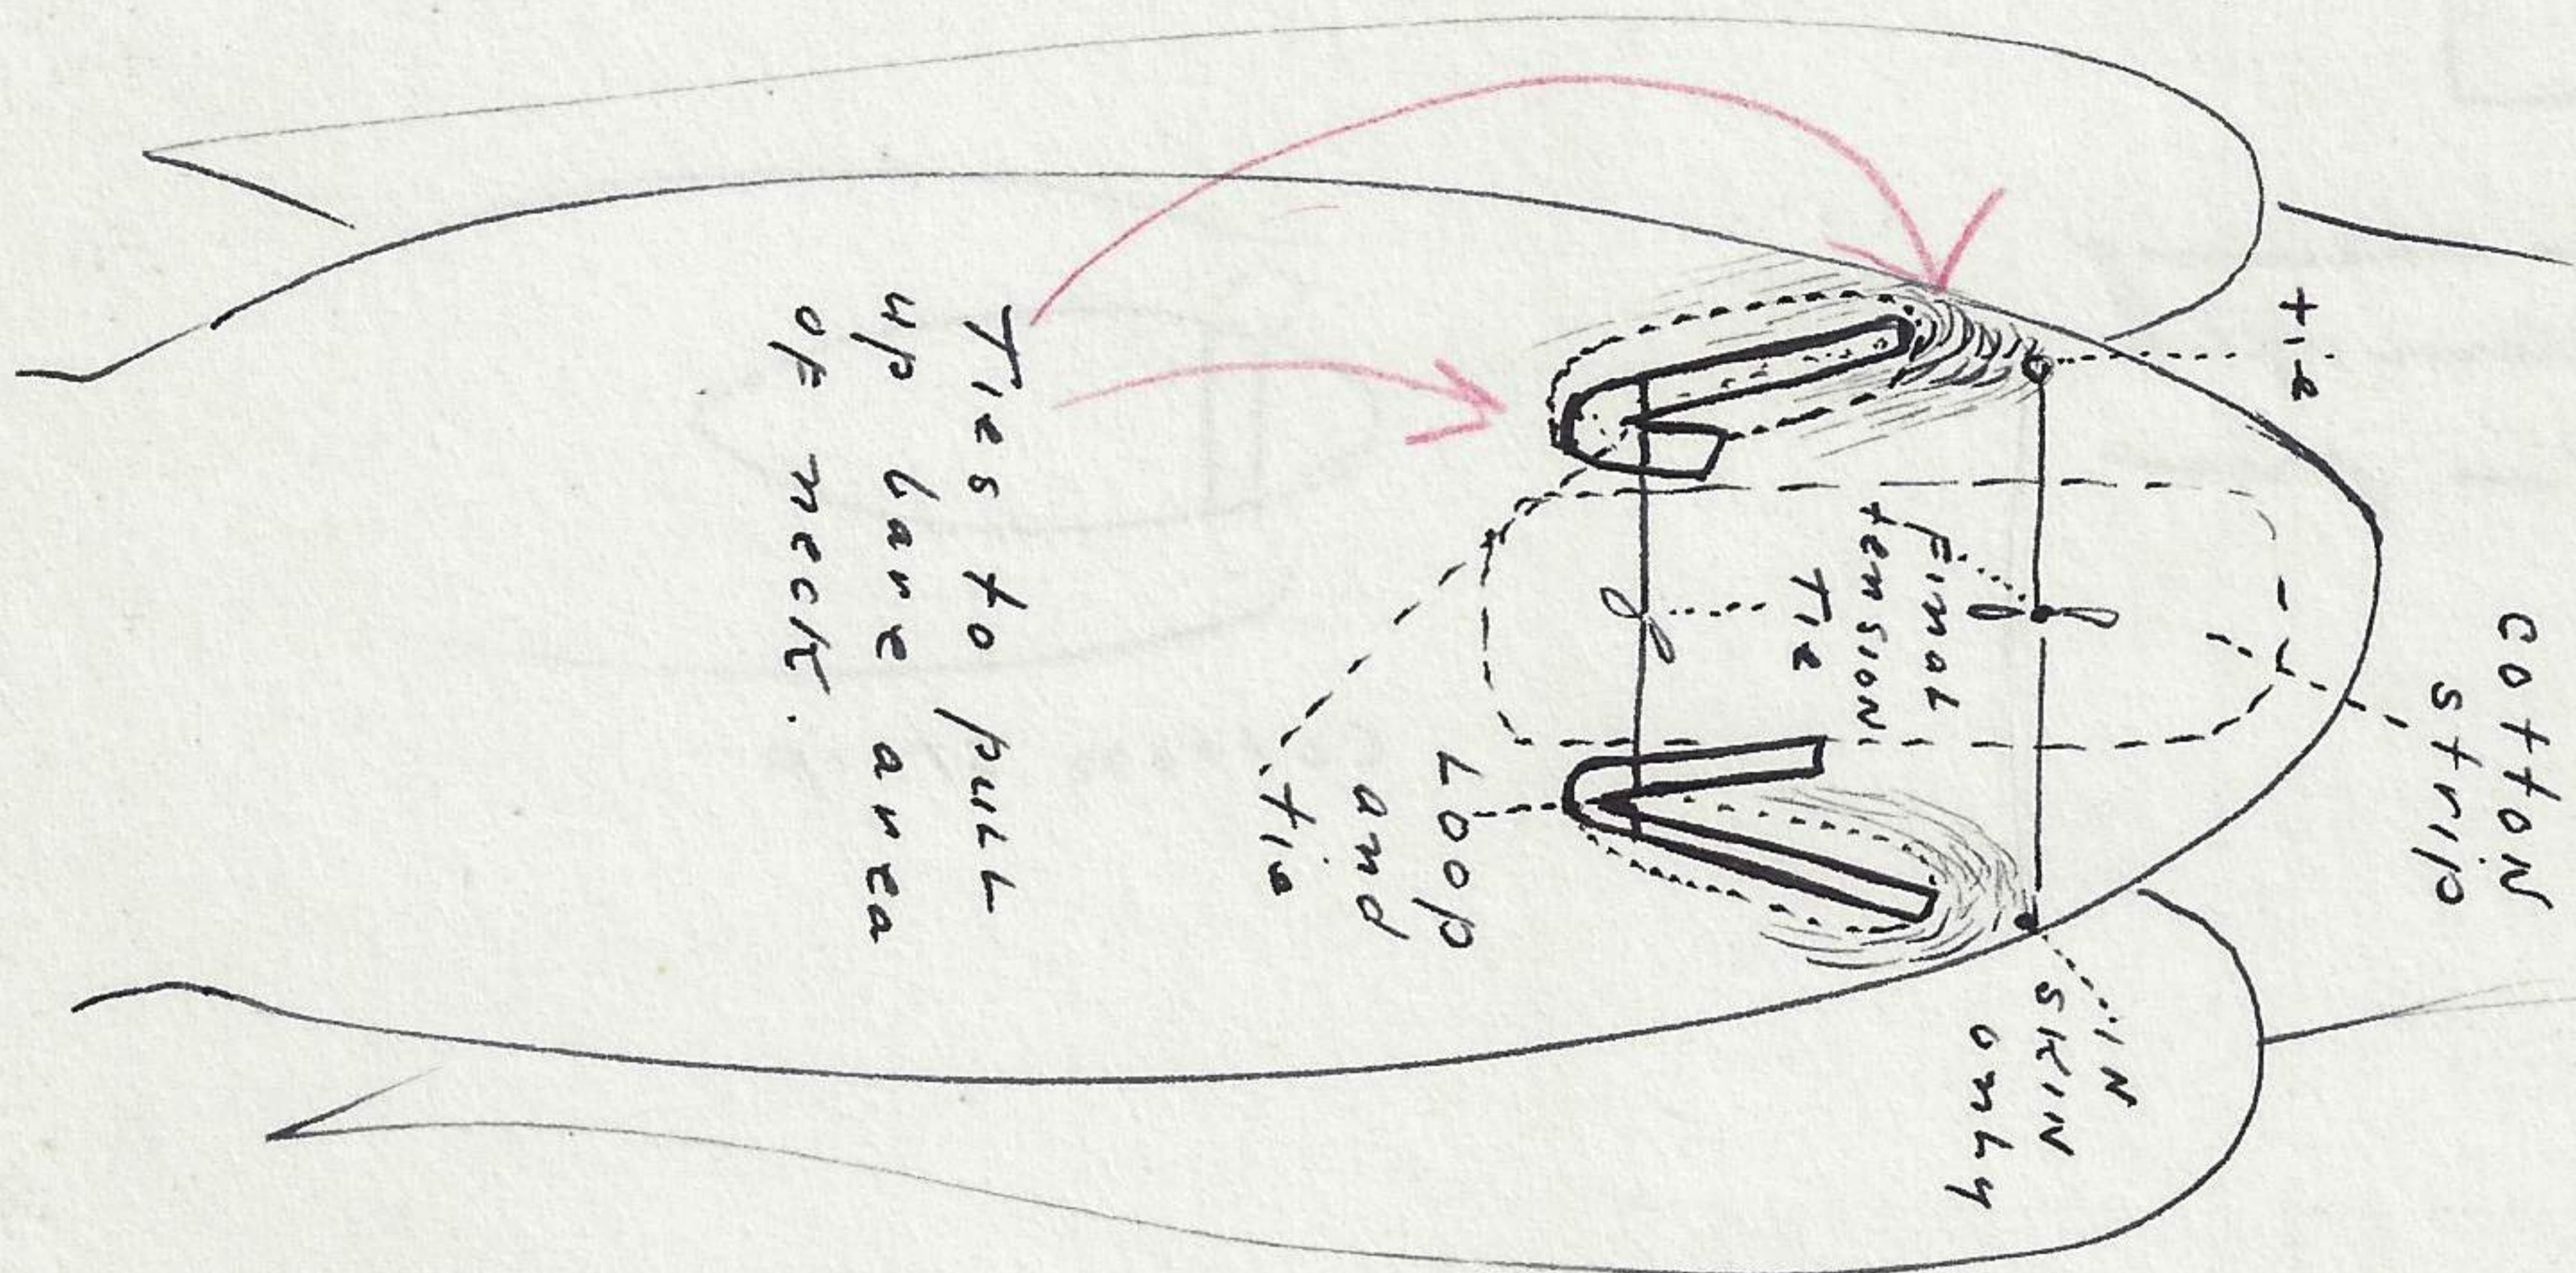

Snowed for the first time in Provo City proper. Mountains completely covered. Later it left Provo and partially receded on foothills but higher levels still white. Considerable rain and very cold.

10-6-39

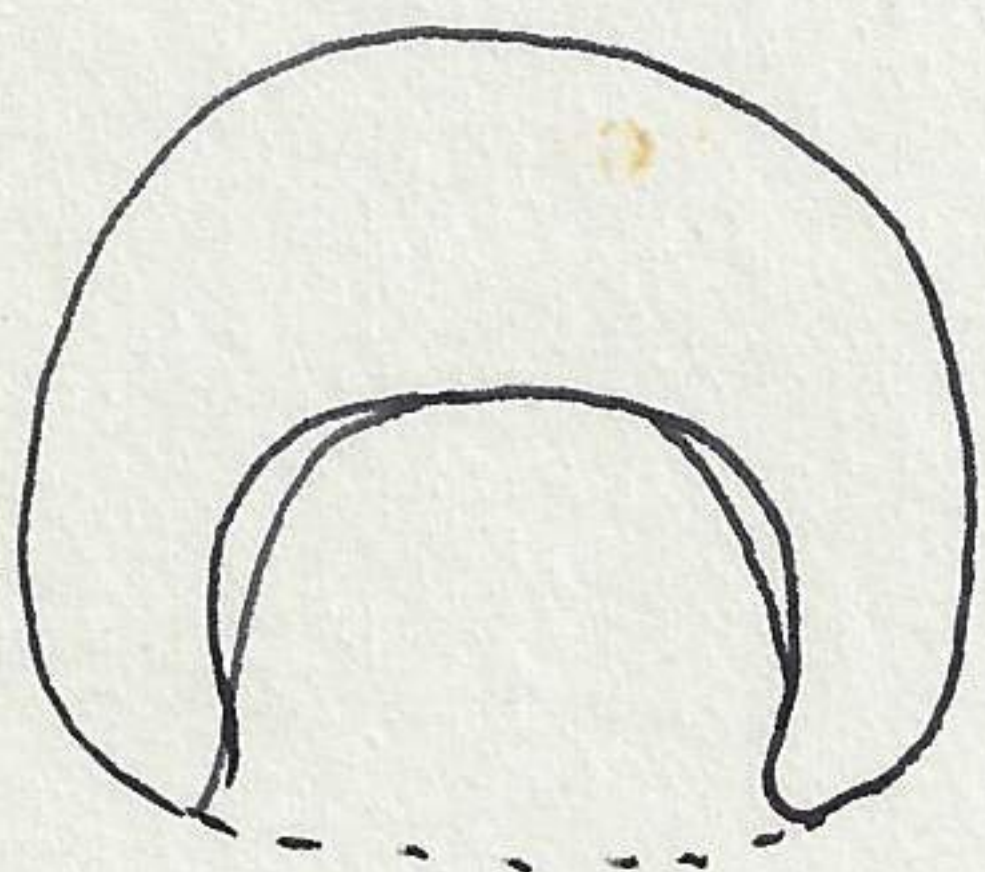

Suggestion for mounting bird of average size. make ordinary incision and clean leg bones and wing bones.

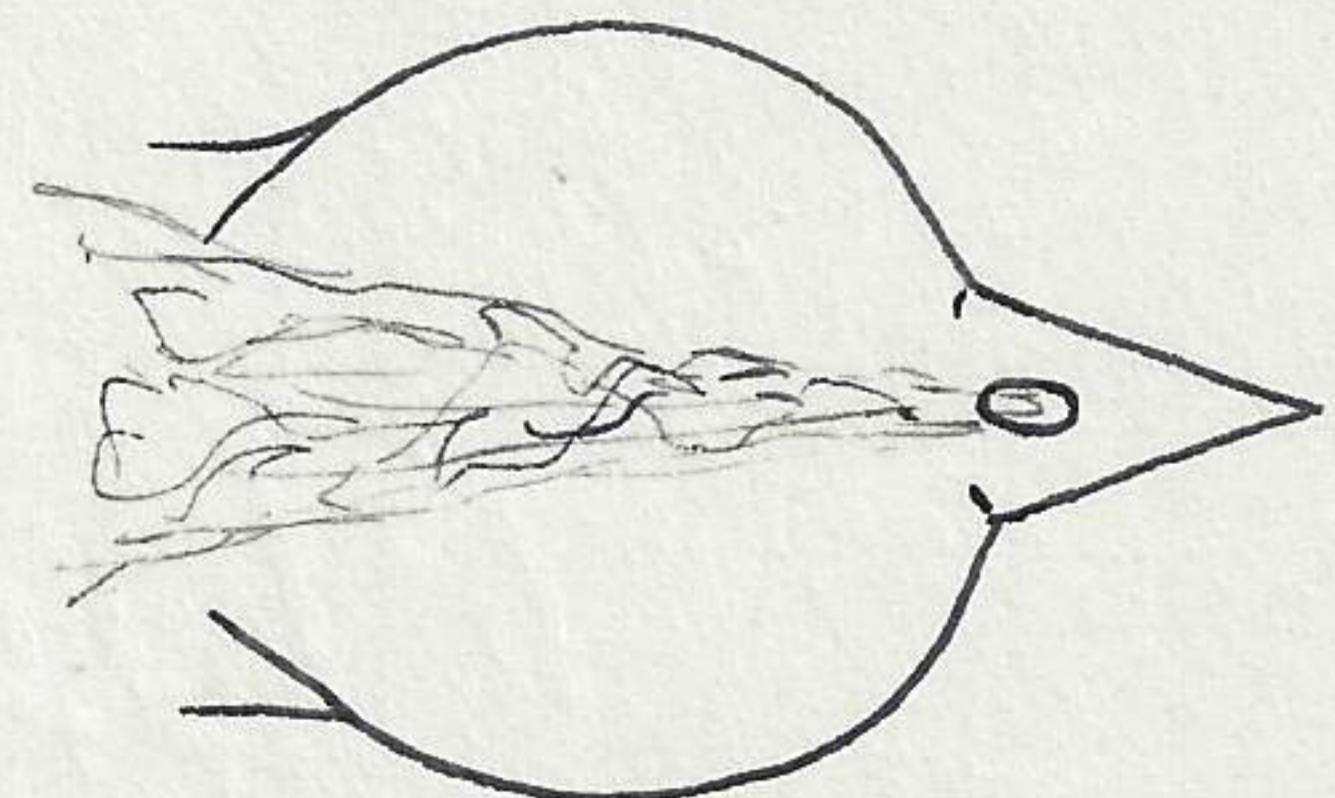

wrap legs with strip of cotton starting at knee or ankle and wrap to knee, overlap and follow back to ankle. Do not wrap wing bones.

The purpose of the thread ties is to draw together the areas on either side of neck that have a tendency to gape open when normally stuffed

Cut in skull  
no cotton in skull.

Incision in upper roof of mouth where cotton from neck is inserted. Cotton placed in eye.
