George Cannon reports seeing 4 Utah Jays in River Bottoms about 2 miles N. of Provo City.

11/6/39

Saw Western Evening Grosbeak on upper B.Y.U. Campus. It was calling

Drove to head of Pale Canyon and then returned by foot down first left hand fork of Rock Canyon to main canyon and hence to mouth of Canyon. Edith and Florence R. Bee made trip with me. Numerous deer tracks. 1 ruffed grouse. Vegetation unaffected by the sheep and showing signs of returning to its normal shape. Picture 1-11-7-39 taken at head of left hand fork of Edith and Flo. The second

1-11-7-39

picture no 2-11-7-39 was taken in rock Canyon

Proper some distance above the Ross Slide section. This trip make an ideal hike providing one can stay with car and then drive around to mouth of Rock Canyon to pick you up again

11/8/39

Rush fire in Mud Lake today.

11/9/39

Last night and yesterday first stormy period since Indian Summer. Little sprinkle of rain. Today film of snow on mountains. Cold and north wind. Another fire in Mud Lake caused by the pheasant hunters.

11/10/39

This evening the atmosphere clear as a bell. Unusually clear over town at night.

A muskrat brought to University. showing abnormal development of teeth as the result of not having ~~normal~~ front teeth meet. The
