

(1-8-11-40) Cub holding one of the larger ones. Most of these larger fish were taken with angle worms at most any time of the day, mainly, however during early morning or late evening.

1-8-11-40

(2-8-11-40) View from large rounded mountain west of Pine Island Lake, looking east with Rock Cr. Canyon in distance. Palisade directly below. Smoke from forest fire hallowing up from back of distant ridge.

2-8-11-40

(3-8-11-40) Mary & Cub in foreground. Palisade Lake directly below. A most inspiring view from this point, to the north as well as to the east and south. Palisade Lake appeals to me as being an excellent lake for fishing possibilities.

3-8-11-40

(4-8-11-40) a typical evening around the fire. For one who has experienced such a situation can only realize the finer feelings derived from contacts with the great out-of-doors.
