Unknown	5
Total	76

Rather surprised to find that the martin was not represented. Enroute to the above research area recorded the following birds and mammals from aspen Grove leaving at 8:54 A.M.

Mc Gillivray's Warbler.

Citellus armatus

Robin

B. N. Goshawk

Broad-tailed Hummingbird

Red-shafted Woodpecker

R. N. Sapsucker

L. T. Towhee

House Wren

Red tail

G. N. Junco

Hammond flycatcher

Audubon Warbler

Utah Jay

Sharp-shinned Hawk

Eutamias m. conso

Hairy Woodpecker

Tree Swallow

N. S. Green Swallow

Batchelder Woodpecker.

Arrived at Mule Flat at 10:55 A.M. After completing the census of area A-5-18-40 returned via peak to west which lies at the apex of the fluted fasciated spur. Recorded the following:

Bluebird 2

House Wren 4

Flicker 2

Citellus 27

Chipping Sp. 7

Hairy Woodpecker 3
