administrative nurses and while they pick up a little ~~now~~ now and then, the question remains as to whether they will ever grasp the procedures and policies of army administration!

Was rather startled at the report of Edith's trouble but am please to know that she is ^{now} making such rapid strides in the come-back. No sir, you just cannot keep her down. I am confident that in a month or so she will once again be her normal self and be able to carry on with even greater energy and vitality.

Must close now and get a little bunk fatigue or more properly 'hit the sack.' Will keep you posted on any further development.

Love
James.

P.S. Copied a few type arrow points from the museum here at the Post. It would appear that the Pueblo culture had influenced these tribes of Oklahoma.
