

ELMER
THOMAS
LAKE

9-10-44

Lee Johnson and I circumnavigated Elmer Thomas Lake, Wichita Wild Life Refuge, Fort Sill, Oklahoma. In general found a decided disparity of wildlife but including the following.

1. *Chaulephus atricristatus*
2. *Mimus polyglottis polyglottis*
3. *Megascops alleyon alleyon*
4. *Penhues atricapillus atricapillus*
5. *Sagella acuta tzytzyhaa* (?)
6. *Catherpes mexicanus*
7. *Salpinctes obsoletus obsoletus*
8. *Tyranga s. cineromixta*
9. *Cosmospiza alba egretta*
10. *Podilymbus podiceps podiceps*
17. *Butorides virens virens*.

11. *Actitis macularia*
 12. *Corvus b. brachyrhynchus*
 13. *Zenaidura m. macroura*
 14. *Ardea herodias herodias*
 15. *Oxyechus v. vociferans*
 16. *Querquedula discors*.
- Considerable evidence of *Odocoileus virginianus*, *Procyon lotor*, and *Canis latrans*.
(no 12. Generally distributed)
