

2-3-23-46

Pictures taken on
Kanab (Dog Canyon)
Eagle trip. Notes
on opposite page.
no 2-3-23-46 of
Annette climbing up
an outcropping of
Quartzite rock, the
former nesting site of
Corvus corax sinuatus
located west and south
of Kanab on 91 highway.

1-3-23-46

no 1-3-23-46 of Annette.
at same site as of above.
This trip was Annette
first official visit to
the nesting site of the
Golden eagle. Ignoring
the tiring ride she
appears no worse for
the experience. Vehic-
-le. $\frac{1}{25} \times 22$. Clear
sunny day.

3-3-23-46

no 3-3-23-46 Annette
at the Dog Canyon
Eagle nest. The alternate
nest is placed in the
juniper tree in the
right hand side of the
photograph. Dad ex-
-amines the nest from
the tree position. Snow
covered the exposures
the extent of approx 80
percent. Ground soft
on flat with few remain-
-ing patches of snow in protected
places.
