

9-16-46

Fished at Hoovers Ranch in Provo Canyon. Dad caught 2 1 1/2 lb German Brown trout. He reports mink here about 40 years ago attempting to get at dead muskrat along river. This evening cold. Beaver flapped tail out water on a long quiet stretch of water and nearly scared the daylights out of me. They now make a terrific splash and when least expected. Deer came to water edge at late twilight.
