3-1-26-48 *Didelphis virginiana* 770-320-71 " "

4-1-26-48 " " 721-285-66 " " no. emb.

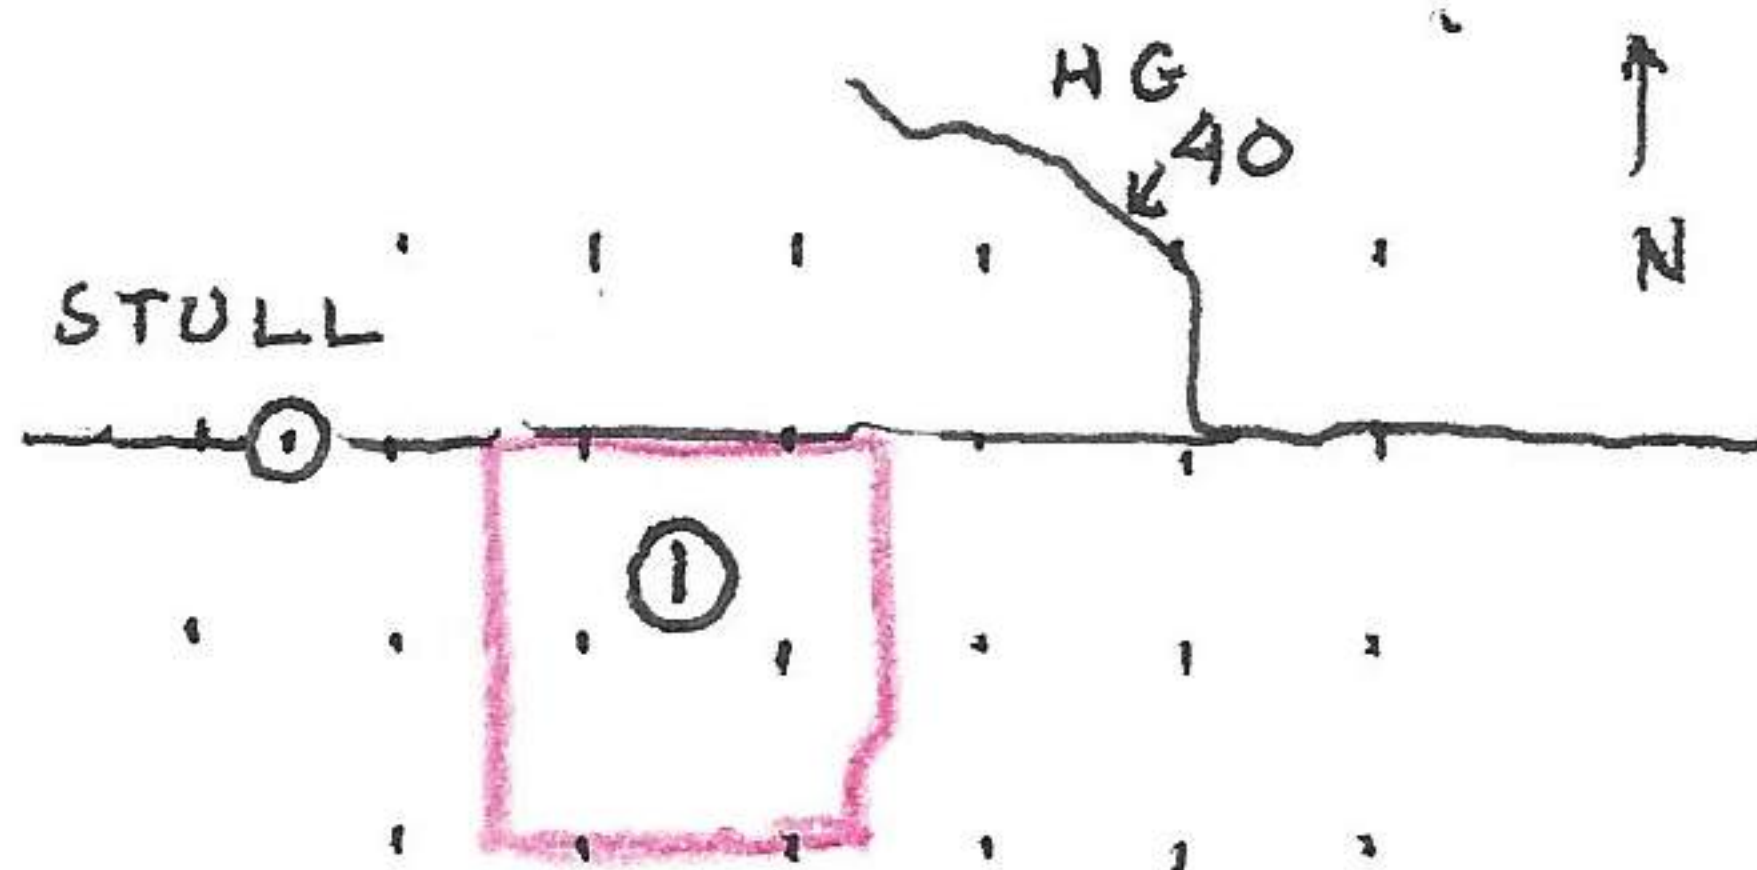

From 3 mi. S Lawrence, Douglas Co., Kansas

5-1-26-48 *Ondatra zibethicus* 530-270-86. measurement only.

2 mi. SE Stull, Douglas Co., Kansas

Jan 27, 1948

Coyote roundup at Stull. One coyote collected from this drive from 4 square miles. It was outstanding in that it was uniform grey without admixture of reds. This area consisted of hillside and river valley. The coyote measured as follows:

SCALE = SEC MI

1-1-27-48 *Canis l. latrans* 1200-338-192-113-27 1/2 lbs. no emb.
(see Dec 23, 1947 and Dec 27, 1947 for other coyote hunts)

Richland, Shawnee Co., Kansas

Feb. 1, 1948

Berrington conducted two Coyote drives. This drive included a considerable part of the Wakarusa river bottom but did not produce results. This area has always been considered ideal coyote
