

11-9-6-48 *Microtus ochrogaster* trap 38
 12-9-6-48 " " trap 41

The following traps were sprung: 5, 8, 10, 13, 14, 23, 26, 31, 33, 34, 36.
 The *Microtus longicaudus* was in a trap near a patch of *Solex*.

From a line of 15 live traps placed in some meadow, caught:
 13-9-6-48 *Zapus*
 14-9-6-48 *Microtus ochrogaster*
 15-9-6-48 *Sorex vagrans*
 16-9-6-48 *Reithrodontomys*
 17-9-6-48 *Zapus*
 18-9-6-48 *Microtus ochrogaster*.

Jim Jonquist caught 2 *M. ochrogaster* in same area.

29 mi. N and 8 3/4 mi. E Laramie, 6420 ft., Albany Co., Wyoming
 Sept. 7, 1948

(see previous localities for other locality designations). Inspected 40 traps left set and untouched since yesterday morning in same positions. Part of meadow wet to saturation. Mammals are;
