

October 24, 1952

The *Lemmus trimucronatus* above were collected at Point Barrow on Sept. 11, 1952 (original number 9 Lemmus and 4 *Quercostomys*) and transported to Lawrence (see notes of Oct. 24, 1952). These animals were shipped to:

Mr. Ernest P. Walker

3016 Tilden St.

^{north}
~~north~~ west Washington 8

D.C.

Walker photographed these animals and presented me with a copy of the prints. The upper animal is Walker's no 3684 C. The one below is no 3684 A. photograph. Both shots are very characteristic.
