24. W. House Wren " " " " "
25. Blue Grouse Cornel Pass " 9-27-36

The above list is check list and does not represent all birds in numbers. that is many birds of each species were observed at different places. Started with 6 choc squares, 1/4 lb cheese, 12 fignuters, 10 figs, 1/2 lbs manna, can of spaghetti, 2 cans veg soup, 1 can venison sauce, sugar, tea 1 lbs of emergency food (raisin, peanuts, candy etc). Came thru with 14 ounces of emergency food, 2 choc squares, 1 m sq of cheese, hand full of manna, 4 figs, 3 fignuters, sugar tea. There was a ^{general} robin migration but mainly around seeps & springs. The juncos were cold & found at base of aspens.

10-10-36

Trip to Bear River Refuge disclosed a bird list of:

mallard	marsh hawk	English Sparrow	y. H. blackbirds.
magpie	Savanna Sp.	Canada Goose	
B. Cr. N. Heron	Am. Coot	B. W. Teal	all birds on
B. Egret	mt. Bluebird	Am. Teal	refuge.

10-25-36

collected Coyote skull no 162 at bear Canyon in Cross Canyon.

10/26/36

Deer hunting trip to Indian Springs at head of Indian Canyon in S.W. Strawberry Country. Got deer in timbered country N.W. of Indian Springs in aspen flats just west of large west draining Canyon which goes into low country to the west. This area appears to be a special breeding and resting grounds for the larger buck deer & their does, while
