

Guatemala City, Guatemala.

march 30, 1955

James H. Tamplin - apicultor Americano
Apartado Postal 55, Guatemala, C.A.
Said interests on Pacific Coast and now
in Lake Izabal area. Has cabin at
Esperanza and lumber interests at San
Felipe. This man has offered to collect
mammals from this area. He says that
SW of lake is most primitive area. I
gave him special instructions to get an
other for me.

Arnold E. Mezger - Finca Buena Vista,
San Sebastian, Dept. Peten
offered to take me to jungle SW of United
Fruit Co holdings at Playa Grande.
Best area of jungle or 'montaña' on
Pacific coast. Is now building
cabin on sea shore at Istán. He
suggests I see Ewald Kachler,
Chalet Verde, Barrio Nuevo in
Guatemala City to see if he still
has osteological collection of Guatemalan
mammals collected by his father.

Dr. William C. Paddock

Formerly Univ. of Iowa now Plant
Pathologist of Agropelucaris. Working on
new corn for Guat. "Caso de vidrio"
at La Reforma. Good contact for Agropelucaris.

David Vela - President of Institute of
Anthropology and History. member Guat.
Geographical Society. President Asoc.
Newsmen in Guatemala. Deputy of
