Alva, Okla. July 4, 1909.

Prof. L.L. Dyche, Corator of Museum,
Lawrence, Kansas.

Dear Sir,

On a collecting trip I made to Alaska last year I secured the specimens listed below, each with measurements, and preserved in good condition for mounting.

Will you be so kind as to give me an estimate of the value of the collection? I desire a fair estimate of their value based upon what such specimens would cost if procured by purchase.

List of Specimens.

4 Moose.

9 Caribou.

7 White Mountain Sheep.

8 Sea-lions.

18 Sea-leopards.

9 Kodiak Grizzly Bears.

15 Alaska Black Bears.

5 Alaska Black-tailed Deer.

1000 eggs of glaucous-winged gull, puffin, oyster-catcher.

50 Small mammals, -porcupine, pika, ermine, whistler,
otter, beaver.

125 Birds, 30 species.

Assuring you that I shall very appreciate your kindness in doing me this favor,

Very truly yours,

G. W. Stevens.
