

as I wish to get those new species published
 as soon as I can. I forgot to tell you
 that Dr Allen wanted me to get estimates on
 the paper to be used. I wrote to my father
 and he sent the data on a post card. I gave
 this to Barker as I was leaving town. He
 said he would give it to Dr Allen. If you
 care to look at the card, you will get to size of
 sheet & cost that the pages in Biol. Surv. Bulletin
 can be cut from best. He estimated that the size
 of pages used by D. G. Ellsop, 1901 - in Synopsis
 of Mammals of N. Amer. Zool. ser. Vol. II. Field Museum
 of Chicago was best suited to this style of
 publication and that was the size he figured to
 stick to cut it from on the card. He was
 present Supt of one of the largest Printing Establishments
 in the West - But let it be for you to decide and I will
 leave it to you -

Yours Very Truly
