4 mi. S Lawrence (P.O.), Douglas Co., Kansas  
 Oct. 19, 1962

Robert Pierson presented me with 2 Buteo jamaicensis which he shot while hunting other game. One of these hawk was prepared as a museum specimen:

621019-1 Buteo jamaicensis, <sup>mm</sup>663, total length, 925 gms weight. ♂  
 The left testis measured 6 x 2 mm; the right one 4.2 x 1.5 mm.  
 The second bird 621019-2 measured 680 mm T.L., 1175 gms wt.  
 and was a female with ovary measuring 11 x 3.5 mm   
 The wing spread was 1305 mm.

Topeka, Shawnee Co., Kansas

Oct. 20, 1962

Noted continuous line of bronze grackles flying across the city of Topeka at about 3/4 hr. before sundown. These birds were fly SSE into sun at about the Y.M.C.A. building. The flight line was approx 80 birds abreast and the flock almost continuous in length. It required 20 minutes for this long line of birds to pass by. Photos 621020-1 to 5 of Mary Pauline and her four faces of Rushmore and her normal.

Wakarusa River, Douglas Co., Kansas

Oct. 21, 1962

Annette and I made canoe trip on Wakarusa River from Blue Mounds Bridge to Slightman's Crossing. Left 3:00 P.M. arrived 4:30 P.M. numerous tracks of raccoon along edge of river at water edge and below on shelf which is probably made and maintained by raccoon. 3 active beaver. noted 5 Rana pipiens on bank at edge of water. Other birds were 1 mallard, 1 great blue heron, 2 red-tail hawks, 3 great horned owl, numerous squirrel (3 at edge of water). At
