| | 621230-73 | " " | 116-43-18-12-11 gms ♀ ut normal |
| | 621230-75 | <i>Mus musculus</i> | 150-75-19-13-11 gms ♀ ut normal |

Made census of *Microtus ochrogaster* & *Sigmodon* along utility line (see figure at first of account) from 4th set of poles to levee to west. There were no runways except at levee (20 feet E.) where dense grasses had protected from trampling of cattle (area now burned). Cattle prints almost continuous with droppings averaging 6 feet apart. In areas east of levee area the grasses were too completely trampled to permit small mammals to exist in the fields.
